What This Actually Means

Use AI as a structured work partner, not a magic answer machine. The goal is clearer inputs, faster drafts, and better decisions.

Key move Useful AI starts with a useful workflow.

PRACTICAL CHECKLIST

- 01** Pick one recurring business task with clear inputs and outputs.
- 02** Ask for drafts, comparisons, summaries, plans, and review checklists.
- 03** Keep humans responsible for final decisions, approvals, and sensitive judgment.
- 04** Save strong prompts as reusable operating procedures.
- 05** Measure time saved, quality improved, and errors caught.
- 06** Scale only after the workflow works on real examples.
